

“Comet 1050” Bowsprit Installation

In the 80s, the sailing boat Comet 1050 was among the most popular sailing boat models.

On this sailing boat, the installation was made thanks to a custom-made ring bracket inserted into the left bow roller.

The ring bracket is directly fixed to the anchor bow roller.

Stern fastening system with Delrin end and deck ring attached directly to the deck.

Ring bracket bolted directly to the bow roller.

The bowsprit leaves the locker and anchor clear for cruising use.
